Joshua:

Per your request, attached is a table showing the discharges from each of our sites where we have LACSD Industrial Wastewater Discharge Permits. As you indicated in your email as being acceptable, we are providing the annual discharge volumes we file on the Annual Wastewater Treatment Surcharge Statements which are on a Fiscal Year basis. We included several previous years for comparison purposes. If you decide that you need the Calendar Year discharge volumes for 2015, please let us know and we can work on pulling that data as we have not yet compiled that data.

Please let me know if you need additional information or have any questions.

Thank you
martha

Hi Martha,

The 29th will be fine. If you can report up until July 2014, that is fine as well.

Thank you,

Josh

Joshua – I just received word from one of my staff who will be compiling data for me and the task I assigned him is actually more involved than I had thought. I am wondering if we can get more time to gather the information – two weeks perhaps to April 29?.

You asked for the 2015 data of discharge to the sewers. The LACSD is on a Fiscal Year basis for the discharge reports (surcharges) so our most recent report covers the period July 1, 2014 through June 30, 2015. So that means we have not yet pulled all of the 2015 raw data – which is not a problem but it will take a bit of time to pull from the corporate data base and compile it to report to you. Also, this has been really busy time for us (Greenhouse gas inventories, etc.) plus company-wide layoffs this month, so any extra time we can get would be great.

Thank you in advance for considering this request.
martha

Subject: Produced Water Discharge Volume

Hi Martha,

The Regional Board has reviewed the response from Breitburn Operating LP (attached) to Order Number R4-2015-0420. In the response you noted that most of the produced water is reinjected, while some sites discharge to LACSD. Please provide the specific annual volumes discharged to the sewer by Breitburn in 2015 by April 15, 2016 if possible, along with permit information. Let me know if you have any questions.

Thank you for your assistance in this matter,

Josh Cwikla
